DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1– 23 drawn to a system, a computer-readable medium and a method for implementing of offloading an I/O task from a first computer to a second computer, classified in class 709, subclass 201 - distributed data processing.
- II. Claim 24, drawn to a method for managing buffers, classified in class 710, subclass 56 - buffer space allocation or deallocation.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility as a load balancing device, capable of carrying out a variety of network-related tasks without the features of invention II. Invention II has a separate utility as a method for managing dynamic storage. See MPEP § 806.05(d).

The inventions are distinct, each from each other because of the following reasons:

- a. These inventions have acquired a separate status in the art as shown by their different classifications and their recognized divergent subject matter.
- b. The search required for one Group is not required for the other Group.

For the reasons given above, restriction for examination purposes as indicated is proper.

Numerous telephone calls were made to the Applicant's representative (Mr. Christopher Leonard, Reg. No. 41,940) on September 26th, 27th and 28th, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is given **ONE (1) MONTH, or THIRTY (30) DAYS** from the mailing date of this communication, whichever is longer, within which to respond to this restriction requirement in order to avoid abandonment (35 U.S.C. § 133).

Extensions of this time period may be granted under 37 CFR 1.136(a).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vitali Korobov whose telephone number is 571-272-7506. The examiner can normally be reached on Mon-Friday 8a.m. - 4:30p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Saleh Najjar can be reached on (571)272-4006. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
